

CORONAVIRUS UPDATE, TRAVEL WITH EASE

We understand the stress of travel planning as new information about the coronavirus continues to emerge. Along with others across the nation, we are working hard to stay informed on its impact as new information becomes available and our heartfelt sympathy goes out to everyone who's been affected by coronavirus.

As a valued customer, Monsey Trails/ Tours wants to keep you informed as to the safety measures we are taking concerning the Coronavirus Disease 2019 (COVID-19).

Currently there are no travel restrictions due to coronavirus.

Our coach buses are thoroughly cleansed with a disinfectant solution on a daily basis. While it's always been our policy to thoroughly clean our buses every day, we are now significantly increasing the cleaning process and carefully cleaning all those areas that are mostly touched on the buses. Disposable gloves will be placed on all buses for the safety of the passengers.

We also encourage you to wash your hands frequently and for extra peace of mind, carry hand sanitizer and disinfectant wipes to use at your seat.

Everyday preventive actions, as recommended by the CDC:

- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Avoid touching your eyes, nose, and mouth.
- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing, or having been in a public place.
- If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- To the extent possible, avoid touching high-touch surfaces in public places – elevator buttons, door handles, handrails, handshaking with people, etc. Use a tissue or your sleeve to cover your hand or finger if you must touch something.
- Wash your hands after touching surfaces in public places.
- Avoid touching your face, nose, eyes, etc.
- Clean and disinfect your home to remove germs: practice routine cleaning of frequently touched surfaces (for example: tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks & cell phones)
